Java notation

```
public void check(){  
    if(x == 5){  
        ...  
    } else { ... }  
}
```

Python notation

```
def check():  
    if x == 5:  
        ...  
    else:  
        ...
```
